PROFILE

Innovative and dedicated software engineer with hands-on experience in web application development, specializing in React, Spring Boot, and Material UI. Successfully completed an internship as a Software Engineer, where I developed, tested, and maintained high-quality web applications. Adept at collaborating with cross-functional teams to deliver robust and user-friendly solutions. Seeking an Associate Software Engineer position to leverage my technical skills and contribute to the development of cutting-edge software solutions.

WORK EXPERIENCE

Trainee Software Engineer

Ones & Zeros (Pvt) Ltd   2023/11 - 2024/05

- Designed, developed, and maintained web applications using React for the front end and Spring Boot for the back end.
- Utilized Material UI to create responsive, user-friendly interfaces, ensuring a seamless user experience.
- Worked closely with cross-functional teams, including designers, product managers, and other developers, to gather requirements, create specifications, and deliver projects on time.
- Participated in code reviews, wrote unit tests, and performed debugging to ensure high-quality code and software performance.
- Managed code repositories and version control using Git, ensuring consistent project documentation and team collaboration.
- Actively participated in Agile development processes, including daily stand-ups, sprint planning, and retrospectives.
- Identified and resolved performance bottlenecks, bugs, and other issues, enhancing application efficiency and user satisfaction.
